

# STRONG. RELIABLE. AFFORDABLE.

SafeSealWrap

18

Months of UV  
Protection

100%

Custom Shrink  
Wrap Rolls

## Our Materials Are Designed By Shrink Wrappers For Shrink Wrappers.

Our formula allows for more shrinking around objects, and our consistency creates a more resilient product, less prone to holes being created. Great for the novice learner too.

# DEMAND MORE FROM YOUR SHRINK WRAP WITH SAFE SEAL WRAP!

**Safe Seal Wrap** offers premium Shrink Wrap made of virgin polyethylene master batches from our world class manufacturing partner. We can create custom shrink wrap rolls to suite your project or market needs. Whether you're a high-volume user or a distributor, we have the answers your looking for.

**Shrink Wrap** offers temporary protection from the weather and natures elements, for all climates around the world. Our material offers 18 months of UV protection.

**Safe Seal Wrap** has been reported to work better in the rain, when compared to other brands. When welding or melting shrink wrap sheets together, the wet joints and welds hold just as well, if not better than dry welds!

Our fully recyclable product comes in a range of sizes from 17' to 60' wide, depending on the desired thickness.

**Safe Seal Wrap** is used around the world, with our shrink wrap installations protecting all industries;

We offer thicknesses ranging from 6 mil to 12 mil, or 150 microns to 300 microns, and at almost any length desired.

- Industrial and Personal Marine
- Scaffolding Temporary Roofs
- Hurricane Damaged Roofs
- Modular Building Transport
- Sandblasting / Painting Hoardings
- Long Term Asset Storage
- Ascetic Coverings
- Heated Containments for Construction
- Hazardous Abatements for Asbestos / Lead Paint
